Game "One Military Camp" is a lighter, more streamlined RPG... ..that helps reinforce the fact that you can have a good game without being hyper-specific about setting or plot. You just want a good, simple adventure. The A.V. Club The RPG for the new generation of players who have seen the genre through the eyes of strategy games. CR.A Polygon A Square Enix RPG title should score an A for originality. Yet The World Ends with You is more than just a homage to Final Fantasy. The World Ends with You is a living, breathing evocation of the JRPG phenomenon, embracing the genre's heart while transforming its sillier elements into something uniquely its own. Pocket Gamer The World Ends with You is an absolute joy to play. From the cheap, anime-inspired visuals and hyperactive gameplay, to the art style and music, it's an experience unlike any other.

Blogger There are better RPGs out there. But the story holds up a great value in an age when video games give you the sense that your experience is ephemeral. When you go to a store to buy a game, you expect that it will be playable forever, and you'll always be able to show friends you played it when it releases a few years down the road. In *The World Ends with You*, that experience is short-lived. Sure, you can have your save game saved on the PlayStation Network,
