Starting Out in Photoshop When you first open Photoshop, you are presented with a welcome screen and the Photoshop Camera Raw window. The Photoshop Camera Raw window is covered in detail in the next section. For now, if you want to start out in the world of Photoshop, just press the OK button to open the Quick Start window. When Photoshop opens, look for the Edit icon on the toolbar. If the Edit icon is grayed out, you need to press the E key on the keyboard to become productive. The Edit icon is your guide to the various tools in Photoshop.

Q: Difficulty with JSNI in IE I'm using the following method: package com.xx.xxx.xxxx.http.impl; import com.google.gwt.user.client.rpc.AsyncCallback; public class HttpCallback implements HttpCallback { String result; public String call(String url, AsyncCallback asyncCallback) { asyncCallback.onSuccess(getData(url)); return result; } @SuppressWarnings("unused") private static String getData(String url) { return ""; } public String getResult() { return result; } public void setResult(String result) { this.result = result; } } to perform a GET request and retrieve data from the server. The problem is that the

class HttpCallback is not accessible in a public class (I know that it is private, but IE 10 does not recognize it as a public class). I am using the HttpCallback to post data to the server and read the response. My method is as follows: public static void getData(String url) { if (url != null) { try { url = url.replace(" ", "%20"); Client client = new Client(); client.configureRemoteService(URL); client.getProtocol().getServer(url, new HttpCallback()); client.start(); } catch (Exception e) {
