Studies on the formation of type 1 collagen variants in rat skin during postnatal development. The formation and persistence of type 1 collagen-like molecules as a major polypeptide component in the stratum compactum and stratum spongiosum of newborn and 3-week-old rat skin was studied by immunohistological techniques. Type 1 collagen polypeptide was found in the epidermis of newborn rat skin and in the deeper layers of the epidermis of 3-week-old rat skin. Collagen polypeptide was predominantly localized in the elongated cells of the dermal papillae in the connective tissue of the whole skin and in the dermal papillae cells in the epidermis. The collagen polypeptide aggregates were present in the extracellular matrix in the dermal papillae of newborn rats. An increased period of the persistence of collagen polypeptide in the dermal papillae of the epidermis was detected in 3-week-old rat skin compared with newborn rat skin. Immunoelectron microscopy of type 1 collagen polypeptides was performed to determine the localization of the new collagen polypeptides within the dermal papillae of 3-week-old and newborn rat skin. The new collagen polypeptides were localized primarily in the collagen fiber matrix of the dermal papillae. There was an increase in

Neonatology at 2.0: recognizing the disruptive impact of technological advancement. The authors reflect on the impact of the virtualization of neonatology, social media, personal electronic health records, and genomic medicine. They suggest that the culture of such technologies both empowers and distresses individuals involved in neonatology. Unfortunately, few neonatologists are trained in, or even interested in, the social sciences and humanities. We need to recognize the potential advantages and disadvantages of such technological innovations, and foster both attitudes of resilience and adaptability among staff physicians. A limited constitutional government calls for a rules-based, freemarket monetary system, not the topsy-turvy fiat dollar that now exists under central banking. This issue of the Cato Journal examines the
