
Nddn W58 Map Disk __LINK__ Download

Hi, I have a NTDT-DVD2645 for my NDDN-W58 and i have a softwar CD for that model. Both, CD and dvd has been bought from a music shop named 'CD Hut'. They can even take a CD for this but cannot take a DVD. I have tried both DVD-RW and DVD-R format disc on a CD and DVD drive, the dvd is always shown as corrupt. Thanks for the post.I faced this issue in the noon today for my navigation system NDDN-W58 and found ur post very helpful to fix it...I am downloading the file and hope it will fix my problem and i will let u know about that. Thanks a lot any how....Ur post is really helpful for many people as i have

seen lots of user worried on internet for the same problem. I sort of have the same problem. i have a toyota axio. it player was fine until i had to unplug the main batteries. now it doesn't function properly. so could you please help me. it wants the map disk. but i'm not sure about my model number. on the lower left, it says 'WMA 56087'could you please help me! thanks in advance! my email - fahim.a.r.94gmail.com

ONLY - If it is Garmin xx-95 series simply download MAP for Pakistan from Garmin website unzip it over a folder and burn the files from that folder to CD/ DVD. check CD/DvD for working on PC. If CD /DVD is correctly running your pc screen will go blank & display'map loading', in 30 seconds it will give message 'GPS engine not found' - press any key to abort.

Software cds available for these models call '0333-4386699' or email 'waraich42yah oo.comnd3n-d53/w53ndct-d53/w53ndct-w53end3a-w54and3t-d54/w54ndcn-d54/w54n
